

Enchanting Radiance
Shimmering Stone is Crossfor's patent technology.

Another dancing stone with a simple structure that can be used for delicate designs, and with more complicated gemstone shaking.

The simple structure of the dangling structure allows it to be adapted to variety of designs.

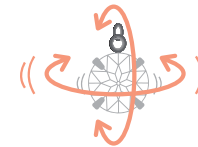

Specially processed jump rings are used exclusively for this product. Inheriting the characteristics of the Dancing Stone.

The unique swaying movement emphasizes the appeal of the sparkle and makes the jewelry more presentable.

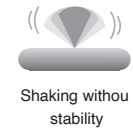

Basic structure of the Shimmering Stone

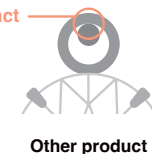

Since there is only one contact point, it keeps swinging up and down, left and right.

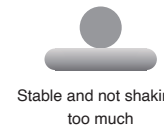

Shimmering Stone

Shaking without stability

Other product

Stable and not shaking too much
